

Residential FENCING

WIŚNIEWSKI

Welcome to the world of WIŚNIEWSKI fencing

Made with passion for 25 years. The WIŚNIEWSKI brand is named after its founder and owner, Andrzej Wiśniowski, whose dream of functional, remote-controlled garage doors and gates marked the beginning of the story. Today, with a site covering more than 80,000 m², we produce hundreds of thousands of products annually. Through the use of advanced technologies, proven materials and our own innovative technical ideas, we give our customers **the certainty of a quality choice**. We have a Certified Integrated Management System based on the PN-EN ISO 9001:2008 and Occupational Health and Safety OHSAS 18001:2007 standards. This **obliges us** to make continuous improvements to our processes and products. Our experience is our guarantee of stability and responsibility for our products throughout their life. It is also the promise of **the highest in quality and safety**.

WIŚNIOWSKI fencing will define your space, providing you a sense of security and peace of mind. Discovering the preferences and requirements of our customers has led us to create **dozens of designs** that easily fit into traditional and modern buildings. A well thought-out system of gates and wickets will provide reliable access control to your property. Open up to **the prestigious, functional and durable** fencing systems. Open up to WIŚNIOWSKI.

WIŚNIOWSKI. Crowning Your Investment.

WIŚNIEWSKI fences are system solutions which can be combined and perfectly adapted to each plot type. Perfectly matched components ensure quick and easy installation, also to an existing fence structure.

The system includes: sliding gates, double-leaf gates, wickets, posts, and a wide range of complementary elements: mailboxes, spearheads, covers for mounting brackets, and initials.

Personalise your fencing and give it character – in some designs, you can include your initials or the property number.

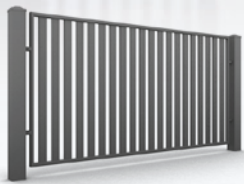

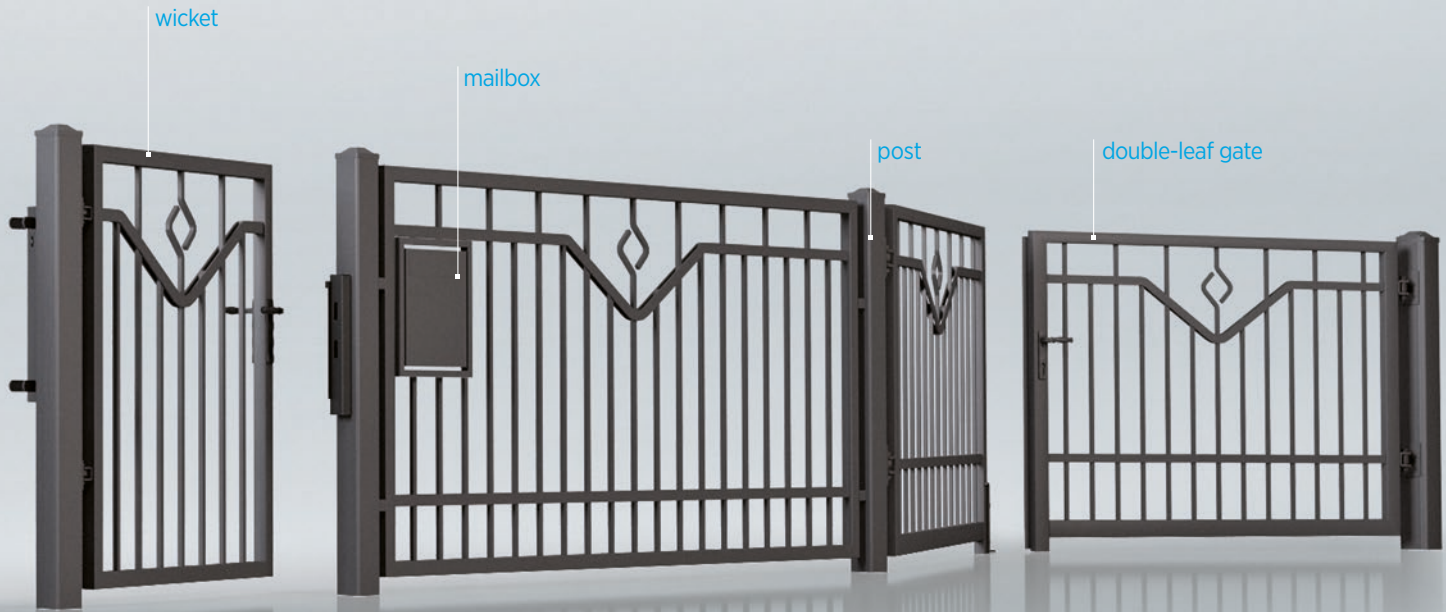

AW EXPERT APPLICATION

Fencing design in many variations with the cost estimate in a few minutes?

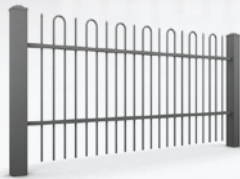

Now it is possible – check it in our distribution network.

SAFETY

LONG LIFE

Only a well-secured fence gives you peace of mind for years. This is a reasonable choice without the need for repeated renewal of the surface. WIŚNIEWSKI fences are made from the most durable material – steel – and we safeguard them against corrosion by DUPLEX system hot-dip galvanizing and powder coating. We control the process at every stage and ensure the highest possible quality. We confirm this with a ten-year warranty against corrosion on steel fencing.

SAFETY

The determinant of a functional and reliable access to a property is a properly sized gate.

We can choose a traditional double-leaf gate, or a more comfortable one – a sliding gate. Its cantilevered design provides smooth operation in any conditions. For safety and convenience, the gate drive is hidden in a post integrated with the design – access to the control device is possible only with a key. In addition, the post protects the mechanism against the weather.

The automatic gate has a flashing light and a cut-out switch; it can also be equipped with photocells and security strip. Gates meets stringent safety standards, which is confirmed by a CE mark.

* WIŚNIEWSKI company provides 10 years of anticorrosion warranty for hot dip galvanised and powder coated gates, wickets, segments and posts.

RELIABILITY

WIŚNIEWSKI HOME INCLUSIVE

DEBUT 2014

The latest **WIŚNIEWSKI HOME INCLUSIVE** collection includes gates, doors and fences, all linked through a single stylistic line. It is a great example of a design oriented on achieving consistency of the usable space, reflecting trends in the world of design.
